Cut Tights

Cut Tights Instructions:

Use a pair of pink or black tights.

1) Cut a **SMALL** hole in the crotch (start with a very small hole- the tights will stretch when you put them on).
Cut off the legs to desired length.

2) Pull the tights on over your head upside down with your arms going through the leg holes.

3) Once you have the cut tights on you may wish to trim them to fit you comfortably.

You may use old or inexpensive tights
